DETAILED ACTION

This application is in condition for allowance except for the following formal matters:

In the specification, page 9, line 25, "Figures 9 and 10" are mentioned, however, it is found that "Brief Description of the Drawings" section shows only the description of figure 1 through figure 6. The same problem has been repeated in the specification, on page 10, lines 32, "Figures 7 and 8" are mentioned, but they are not represented in the "Brief Description of the Drawings" section. Appropriated correction is required.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

The following is the Examiner's statement of reasons for the indication of allowable subject matter:

The prior art closest to the subject matter of claims 1 and 12 is the reference of Tamai et al. (U.S. 5904728A) which discloses an apparatus and method for providing route guidance to vehicle user and the audio message provided to vehicle user before said user begin to turn to a specific road or a specific intersection. The reference to Tamai et al. is missing to disclose the features as claimed in claims 1 and 12.

It is found that none of the references or the combination teaches or suggests such a system claimed by applicant. Thus, the subject matter of claims 1 and 12 are new. The prior art does not contain any teaching that would lead a skilled person to

modify the closest prior and thereby arrive at the invention. Therefore, the application is now set in a condition for allowance except for the formal matter as discussed above.
